Plan

This remote learning plan has been written as guidance for staff and parents during the COVID-19 Pandemic. It sets out the systems and technology that staff will use to keep the learning experience going for children in the event of a bubble closure, or individual staff /children having to self- isolate in line with government guidelines. The plan details how systems and technology can be used effectively and safely, while allowing for the differing needs of families.

The school's usual Online Safety Policy and Acceptable Use Agreements still apply at this time but this plan is an addendum in these unprecedented circumstances.

The staff remote learning is led by SLT and any concerns, questions or feedback can be communicated via email to office@meirheath.staffs.sch.uk. If you are unable to access the internet or do not have enough devices then please get in touch, we may be able to help.

1. Aims

This remote learning plan for staff aims to:

- Ensure consistency in the school's approach to remote learning
- Set out expectations for all members of the school community with regards to remote learning
- Provide appropriate guidelines for data protection

A flexible approach

Keeping regular learning going during the period of bubble closures / self -isolation is of great importance to reduce the impact on children's education. However we understand that everyone's circumstances at home will be different. Some families have one child to support while others have several. Some families have one device to share while others may have more – and some things may work differently on different devices. Some parents will have plenty of time to help their children learn, while others will be working from home and may have much less time and some children will be able to work more independently than others or need greater challenge. Due to this we are providing a flexible approach to remote learning. We will offer access to learning via Microsoft Teams; email; iPads and the Showbie learning platform when this has been set up in school; where a family has limited or no internet access, we will provide weekly printed packs.

Instant Access to Remote Learning

To ensure that learning is instantly accessible in the event of a bubble closure or child having to isolate, please follow the weekly procedures below:
